

BUILT-IN STRUCTURE CUTOUT DIMENSIONS

ALL DIMENSIONS ARE TO FINISHED SURFACES.

⚠ WARNING: All countertop finished surfaces must be constructed of a noncombustible material.

GENERAL CONSTRUCTION DETAILS

Summit® Built-In unit and all other accessory units should be on site before construction begins.

All dimensions have a tolerance of plus or minus (+/-) $\frac{1}{4}$ inch (6.35 mm).

The grill frame rests directly on the Island Structure top finished surface. Make sure this surface is level. Do not support the grill from the bottom.

If the supporting structure is going to have an electrical outlet for a rotisserie, it should be on the left side of the structure.
